

Welcome to the CPS Learning Center!

Welcome to the Charlotte Public Schools Learning Center. Our new learning environment provides additional options for our alternative high school students.

The new modern building consists of four classrooms, a computer lab, and a science lab. There is also be a lounge area for both students and staff. In addition, there is a small dining area for students along with a small outdoor recreation area. The learning environment is state-of-the-art for our students.

Our goal is to provide students with a positive learning experience. The new campus allows the program to have more continuity. In addition, the new campus allows the program to improve curriculum and provide students with a chance to obtain their goals. The goal is to increase student learning, no matter what level they are at in their high school career.

The staff accepts the challenge to guide the students to be the best they can be, and to be successful in their endeavors.

For additional information regarding this program or enrollment procedures, contact Eric Emery, Learning Center Coordinator, at 543-5138.
