

District Technology Committee
Ad-Hoc meeting
March 25, 2010

Topic: WINDOWS 7

1. Logging in
The windows username has to be typed in for instance; teacher, student or office without a password.
2. Testing experiences (some software compatibility issues)
Have experienced some compatibility issues with some specific software that is mostly at elementary level.
3. Features – Sticky notes; snipping tool
4. Web tutorials
Microsoft home page has tutorials on Windows 7
5. Request to have loaded; destination
Members in attendance can request Windows 7 to be loaded by submitting an email to varneyj@charlottenet.org with specifics on location.
6. Decision – zoomerang survey
A survey will be sent out to all those that have tested in regards to switching from Windows XP operating system to Windows 7
7. Office 2007?
For the 2010-11 school year we will continue to support Office 2003 and investigate moving to Office 2007 for the following year.
8. Other
The Wide Area Network project is slated to be connected in our district by the end of May. We would hope that by the start of the 2010-11 school year we will have this connection and resolve some of our bandwidth issues.
