### **CHS STUDENTS VISIT FORESIGHT GROUP, LANSING**

Charlotte High School students enrolled in Digital Media 1 and 2 courses taught by Tina VanSyckle and Monique Colizzi participated in a work site visit. On October 23, 51 students traveled to Foresight Group in Lansing. During the introduction, students enjoyed a light breakfast and were introduced to the workplace and the career opportunities available to them. Employees shared unique stories of how they started out at Foresight Group and where they

are today. Foresight Group employees provided small-group tours of the facilities where students learned about different divisions of the print and graphic design business. Each tour guide provided a round table discussion, giving feedback to each question. "This was a great opportunity for our students to learn hands-on what the print and graphic design industry is like. We all learned new things on the visit. We thank Foresight Group for taking time to teach our students," VanSyckle said.

"This work-based experience is part of our Career and Employability Skills Standard and is designed to help students explore a career choice as well as observe employability skills. These include using technology, attending work daily and on time, work behaviors and personal qualities needed to be employable, meeting deadlines, following directions, accuracy, problem solving, paying attention to details, working independently and as a team member," VanSyckle said. Employees at Foresight Group spent a few minutes emphasizing the importance of these skills in the workplace. They shared the importance of having fun and enjoying your career.

The students from the Digital Media 1 and 2 classes would like to thank Deanna Dowling and the other employees from Foresight Group for a wonderful day and a positive learning experience.
