Weymouth Child Development Center Partners with Head Start

Charlotte Public Schools' Weymouth Child Development Center is excited to offer a new program to the Charlotte community and developing a stronger partnership with Capital Area Community Services. We will be partnering with CACS Head Start to provide an Early Head Start program for children 18 months to 3 years. This is in addition to the current programs available at Weymouth Child Development Center that proudly serve 140 children participating daily from age 6 weeks to 12 years.

Early Head Start is a federally funded program that provides early education experiences to enhance a child's social, emotional, physical and cognitive development and school readiness. The program strives to enable parents to be superior caregivers and teachers for their children, as well as to work hand in hand with program staff to meet family goals and reach their fullest potential. Families who qualify can participate in this free child care program and can expect to see high quality, committed, caring staff, Family Fun Nights, Curriculum designed for school readiness, free books and activities, mental health services and referrals, and much, much more.

For more information on this great opportunity or to see if you might qualify for the Early Head Start program, please contact Jen Radee at 541-5181.
