6th Grade Math Vocabulary Game Day at the CUE!

Each year at the Charlotte Upper Elementary the students are challenged to master math vocabulary words to increase their success in their math classes. The 6th grade teacher team wanted to make the studying a little more interesting and relevant to their students. In the beginning of February, the 6th grade students were given a task of creating a board game that would help them review the 6th grade guaranteed math vocabulary words in a fun and interesting way. They used

pizza boxes donated by Jet's pizza in Charlotte and Hungry Howie's, Little Caesars and Pizza Hut in Grand Ledge. The students were given one month to complete this task and the creativity the teachers saw was amazing! As a culmination of the project the classes came together in the cafetorium to share and play the games. A fun time learning was had by all!
