## CUE PAWSIBILITIES

Wednesday, October 18, was an exciting day for Mrs. Kineman's resource room at Charlotte Upper Elementary. The students were visited by Connie Friedly of Pawsibilities Rescue, her volunteer assistant Casey, and Pepper; a white rabbit with black markings.

The students learned about the animal rescue facility and how to help the animals there. They discussed ways to raise animals responsibly and how to care for pets.

Pawsibilities is located in Olivet at 2200 Bellevue Hwy, and takes in not only house pets, but also livestock, wildlife, and reptiles. They have placed 135 dogs, 60 cats, and 30 miscellaneous animals since opening last year. However, Connie has been an animal rescuer for over 45 years and visits our classroom each year. The class

presented her with a donation of \$200.00 to help with the feeding of the animals. Students raised the money through the Student Store at Charlotte Upper Elementar, selling a variety of school supplies.

Overall, the class had an exciting time, petting Pepper, learning about animal care, and helping others.
