CHS BUSINESS STUDENT EARNS MICROSOFT CERTIFICATION

Congratulations to the new Microsoft Office Specialist (MOS) certified student. On April 24, 2019, Michael Leiby took the MOS Excel 2016 certification exam, and successfully passed certification. Michael is the first student to complete the required training to be eligible to take the challenging Excel certification test.

The MOS program is an industry-recognized, standards-based program for validating Microsoft Office skills. Michael is in Computer Applications class taught by Mrs. Tina VanSyckle, which prepared him to pass this special certification test. For weeks, Michael has been working independently on exercises, assessments, and computerized practice tests to prepare him for this exam. Michael received an official certificate from Microsoft, and a second certificate was posted to the classroom Wall of Fame.
